

Fall 2016

"I learned to forgive, to find myself in my own heart and it feels wonderful."

Dear Friends,

As we experienced the gift of *Centering Space* over the past decade, we have come to understand that it is not simply a "house" but a "spaciousness." We aren't a "religion" but an "openness" – welcoming people from any belief system or spirituality. We provide an opportunity for everyone who join us to get in touch with their individual connection to God/Mystery/Life/Love.

"The simplicity, gentleness and humor I find here is healing."

There is a welcoming presence here, a becoming "at home" for those who wish. The variety of prayers, programs, moments of peace are not one size fits all, but tailored to the needs of individuals and groups.

With your help, we are able to offer a taste of peace and community to those who desire it.

All who have ever come to *Centering Space* are now part of our ministry in prayer and blessing. We count on your spiritual and financial support to keep our doors open to others.

The year 2016 brought a new dimension to our growth as we welcomed an Advisory Board to guide our evolution. The dedicated care and energy of these women and men promise the continuance of the gifts of our ministry into the future. The Core Circle will be bowing out of leadership after 13 years of service and opening a path for more creative possibilities.

Your continued generous support during this 2016 Annual Appeal will assist us in many ways to keep this holy place alive and open for those who seek a refuge of prayer, hope and discernment.

"I always come away feeling better than when I arrived."

Gratefully,

Centering Space Advisory Board
